

# CONFORMAL COATING TRAINING

Technical Overview

*Conformal coating solutions made easy*

## How well is your team trained in your conformal coating process?

If you use conformal coating in your production we can help to develop or optimise your process to ensure you achieve the best performance.

SCH uniquely can offer expert training in all areas of conformal coating including application techniques, material selection, process optimisation and troubleshooting.

### What we can offer

We can provide standard or tailored training packages that cover any of the critical issues relating to conformal coating processing that you may need. They may include:

- Basic knowledge and understanding
- Conformal coating and equipment selection
- New product introduction
- Masking and de-masking
- Inspection criteria
- Process control and development
- Troubleshooting and problems solving
- Conformal coating removal and repair

Training can be both theoretical and practical and can be delivered either at a customer's facilities or one of our own global coating services facilities.

### Why train with SCH?

SCH Technologies has unique experience in conformal coating. We coat boards and provide everything you need to coat circuits yourselves. So, we understand the processes completely.

This allows you to receive unparalleled knowledge transfer and instruction to address the many issues related to coating, cleanliness and long-term reliability.
