

UV INSPECTION LAMP

Technical Overview

Conformal coating solutions made easy

Want to help your conformal coating inspection process? Use a UV magnifier

The inspection lamp has a magnification of 5 Diopters and UV fluorescent bulb that provides the perfect inspection environment for operators and inspectors for the conformal coating process.

0-hour specification; Intensity 25 mW/cm² at a distance of 15 cm and an intensity of 10 mW/cm² at a distance of 30 cm. Usage of the lamp is not allowed after a decreasing of the intensity with 20%

Standard Features

- Ultraviolet light between 320 - 405 nm
- Magnification 2.9X (5 diopters)
- Optic is circular glass lens
- Dimmable None
- UV fluorescent LED bulb
- Table clamp included
- ESD safe

Options

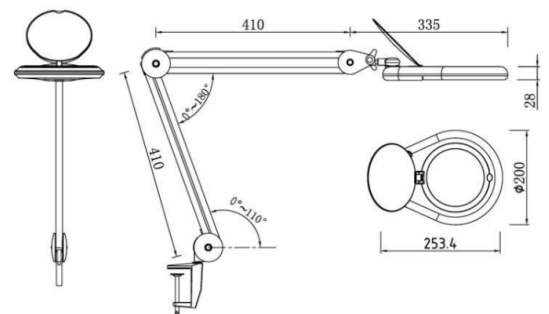

- Reduced magnification 1.75X (3 diopters)

Facilities

14W Led.
